

Download Improving Growth Prospects In The Pacific (pacific Studies Series)

This report examines the role of land and labor markets in ADB's Pacific developing member countries' (PDMCs) economic growth and looks at the best way to mobilize land and labor resources in these countries. The creation of secure individualized land tenure within the context of the widespread communal ownership of land in the Pacific islands is a highly sensitive and difficult issue. Improving Growth Prospects In The Pacific Pacific Studies Series G20 bibliography, this information system is provided by the university of toronto library and the g20 research group at the university of toronto.
